Dear prof person,

Pretend this page is a letter of submittal.

## First section

Your text goes here. I'm going to add a bunch of words to make this a paragraph longer than one line.

The next paragraph is automatically indented, as per the guide (default L<sup>A</sup>T<sub>E</sub>X behaviour)

### 1.1 A subsection

More text.

#### A sub-subsection

Yep, it's actually a `\subsubsection{sub-subsection name}`.

# Some Tables and Figures

Here is a figure:

Figure 1: System diagram of a P controller

I can start talking about that figure, and refer to it as figure 1 and the number will update based on the label which is very useful when you're shuffling stuff around because you don't have to keep track of figure numbers.

We can also do tables, like so

Day	Min Temp	Max Temp	Summary
Monday	11C	22C	A clear day.
Tuesday	9C	19C	Cloudy with rain.
Wednesday	10C	21C	Rain.

Table 1: Some table I copied from the Latex wikibook online

Like the previous figure, we can refer to this table as table 1.

Here is a kitten:

Figure 2: It's a kitten. You like kittens.

### 3

## Equations

Here is the transfer function to the control system shown in figure 1:

$$T(s) = \frac{Y(s)}{R(s)} = I(s) \cdot \frac{K_p \cdot P(s)}{1 + K_p \cdot P(s) \cdot H(s)} \quad (1)$$

As usual, we can use it's number. That was formula (1)

## Citations

Three items are cited: *The L<sup>A</sup>T<sub>E</sub>X Companion* book [1], the Einstein journal paper [2], and the Donald Knuth's website [3]. The L<sup>A</sup>T<sub>E</sub>X related items are [1, 3].
